

Size: 10'0" x 16'0"

Project Duration: 6 weeks

Project Information:

Smoking by-laws restrict people from smoking anywhere in this distribution centre. They provided their employees and visiting public with a large, naturally ventilated, “SMOKE-OUT” smoking shelter. This Shelter provides a dry protected area out of the wind close to the main entrance for easy access.

Features:

- Clear anodized aluminum frame/panels for a maintenance free enclosure.
- Tinted tempered safety glass 5' high for maximum light and visibility.
- 6" removable panel band under roof if additional ventilation is required.
- Attractive appearance with custom finishes to match existing building.

“Providing Shelter from the Storm”
